

Hosted Business Telephony solution is delivered using Contrex, our cloud-based telephony platform. The Hosted Telephony service is fully managed and supported in return for a monthly fee per user.

Excellent Voice Quality

With Hosted Business Telephony the call quality and performance is the same as it is across the ISDN phone network, with the added benefits of additional features and control, provided by our Next Generation Network and cloud-based management portal.

Ideal for any sized business

Our Hosted Business Telephony is fully functional and flexible enough to meet the needs of a wide range of businesses, from a one person organisation, through to larger corporates.

Full suite of numbers

- Choose any UK landline phone number
- Marketing numbers (03**/08**)
- International numbers available for many locations
- Keep your existing phone number(s)

Unified Messaging

- Fax-to-email

Inbound call routing

- Time-of-day routing
- Auto-attendants
- Call queues
- Hunt groups
- Flexible divert options

Value for money
Competitive call costs
Minimal capital outlay
Increased staff flexibility
Single monthly fee per user
Feature rich
Cloud-based management portal

Value Added Features

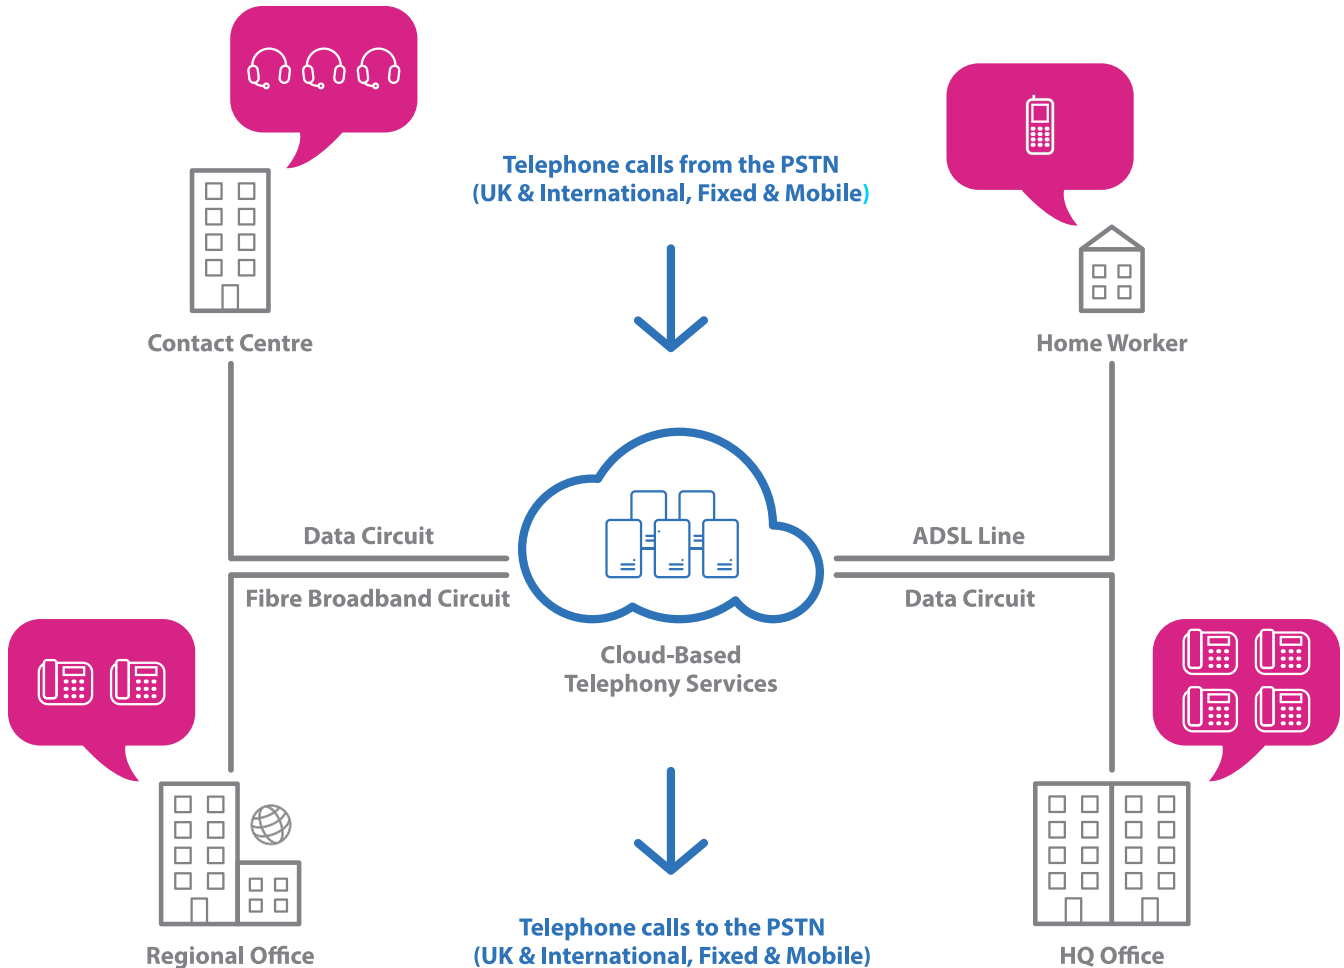

- Management portal
- Secure (FCA compliant) call recording
- Supervisor wall boards
- Hot desk capabilities
- CRM integration
- Contact directories
- Conference rooms

Simple online management

Contrex provides the user with a fully functional web portal to manage the services that the platform supports.

How Contrex works

One platform, multiple applications

Leave security to us

The Contrex platform sits behind hardware firewalls that are managed by our Technical Team. Our Fraud Monitoring and Detection system continually watches over the Contrex platform, checking for unusual call patterns and proactively alerting and suspending customer accounts when needed.

Years of Experience

Award Winning Technology

Customer Focused Support
